CLAIM LISTING

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Original) A process for making a mask for use in a process for curing a photosensitive material, the process comprising steps of:

providing a thin transparent material of substantially uniform thickness;

forming a pattern of opaque regions in the material according to a predetermined first pattern; and

embossing the material according to a predetermined second pattern.
2. (Original) The process according to Claim 1, wherein the first pattern substantially correlates with the second pattern to form a combined non-random repeating pattern.
3. (Original) The process according to Claim 1, wherein the steps of forming the opaque regions and embossing the material are performed simultaneously.
4. (Original) The process according to Claim 1, wherein the step of forming a pattern of opaque regions comprises applying ink to selected regions of the transparent material.
5. (Original) The process according to Claim 4, wherein the selected regions comprise distal surfaces of the embossed areas of the material.
6. (Original) The process according to Claim 1, wherein the step of providing a thin transparent material comprises providing a transparent film.
